

Police Move in Against Calcutta Rioters

Calcutta police explode a tear gas bomb before moving in to prevent rioters from setting fire to the Hindu temple at right, during the recent riots between Hindus and Moslems. Government sources at Calcutta disclosed that bodies of 2020 persons killed in the battling have been picked up, and the job of recovering bodies from the canals has not even been started.

MORAN FACES
PRISON TERM

Former Capone Rival Con-
victed by Jury of Ohio
Tavern Robbery

(By Associated Press)
DAYTON, Aug. 27—George
(Bugs) Moran, a rival of Al Capone
in Chicago's gang wars of the Pro-
hibition era, failed to convince a
jury of 11 women and one man
here that he had settled down in
Kentucky as a respectable business
man.

Moran and two pals were con-
victed here last night of the ro-
bbery of a tavern that called for a
10 to 25 years sojourn in Ohio
State penitentiary.

Throughout the 11 days' trial
Moran, who was known as Bugs by
Chicago hoodlums because of his
moodiness, insisted that he had
been living a quiet, circumspect
life in Henderson, Ky., as an oil-
man. He produced two witnesses
from Kentucky who agreed with
him and he also offered an alibi
that he was elsewhere when John
Kurpe, Jr., a tavern employee, was
robbed of \$10,000 last June 28.

Convicted with him were Al Fouts
of Dayton and Virgil (Doc) Sum-
mers of Henderson, Ky.

Served Previous Terms
Common Pleas Judge Robert U.
Martin announced he would sen-
tence the trio after ruling on a mo-
tion for a new trial which defense
counsel prepared to submit today.
Although Moran has escaped
prison terms on several occasions,
iron bars would be no novelty for
the one-time Chicago "miracle
man," so-called because he was un-
scathed by slugs which killed many
comrades. From 1910 to 1918 he
served prison terms for robbery
after starting a career as a "leg
back" in 1905, Chicago police said.

Moran joined the Capone-Torrio
gang in 1923, then went with Dion
O'Banion, when Capone and Torrio
split.

Reformed, He Said
When O'Banion was assassinated
in 1924, "Bugs" took over. Prior to
1929 he lost three henchmen and
in the St. Valentine's day massacre
that year, he lost seven. He was
accused twice of attempts on Cap-
one's life in 1925-26.

Shortly thereafter he made a
quick trip to Canada and on his re-
turn he was accused many times,
but never prosecuted in gang kil-
lings, including the deaths of 10 in
the 1930 "10 days war."

The 54-year-old Moran, who wore
a conservative blue business suit,
told the jury he had reformed.

National Air Race Pilots
Prepare Planes For Tests

By JAMES J. STREIBIG

Associated Press Aviation Editor

CLEVELAND, Aug. 27—Pilots and
mechanics tinkered around stripped
down fighter-type airplanes today
to ready them for qualifying
dashes around the 30-mile course
at Cleveland airport in an effort to
qualify for the Thompson trophy
race on Labor day.

Twenty planes are entered for the
300-mile event, feature of the final
day in the four-day National Air
Races program being renewed after
a seven-year lapse.

Only 12 planes will be permitted
to start, and these must earn their
positions by averaging more than
275 miles an hour for two laps.

Twelve planes will be on the
starting line also for a smaller ver-

sion of the famous classic, the
Sohio trophy race to be flown at 240
miles, on Saturday.

27 In Cross-Country Race

Speed qualification will not be re-
quired for the 2,100-mile Bendix
trophy race from Van Nuys, Calif.,
to Cleveland on Friday, with 27 en-
trants reported ready to go.

Jacqueline Cochran, who won
the 1938 Bendix event, said in
Hollywood yesterday she may be on
the starting line for this year's re-
newal, and if not, someone else may
pilot her P-51.

Race officials feel certain that all
present speed marks for the Clevel-
and show will be smashed during
the renewal. The Bendix mark of
7 hours, 54 minutes set in 1937 prob-
ably will be cut to less than six
hours, and the Thompson record of
283 miles an hour set in 1936 should
be raised to well above 300.

The closed course has been in-
creased from 15 to 30 miles and
from three laps to four to reduce
the number and sharpness of the
turns. The familiar wooden pylons
have been replaced by barrage bal-
loons.

Army, Navy Demonstration
The show will be largely military,
with army and navy air branches
providing demonstrations of forma-
tion, speed and stunt flying. The
Army Air Forces has entered a
number of P-50 Shooting Stars in
two special events for jet planes,
one a duplication of the Bendix
trophy race and the other a
straightaway speed dash of 1,500
miles (4,920 feet). The dash will
be flown under the rules which
govern the official world speed re-
cord except for the distance.

Women fliers will race Friday,
with six planes entered for the 75-
mile dash around a 15-mile trian-
gular course. With one exception,
the women will fly planes used by
the armed forces for advanced
training.

Wheatley has been in the Lima
hospital since July, when he was
indicted by a special grand jury in
connection with the fatal beating
of Mrs. Letha Barrett, 56, at East
Liverpool on May 23. The defend-
ant, a Newell, W. Va., potter, en-
tered a double plea of innocent and
innocent by reason of insanity at
his arraignment.

ELKINS, W. Va., Aug. 27—Rich-
ard Lawrence Wheatley, 52, father
of Abe Wheatley, convicted of violat-
ing the national kidnap act by
forcing Denzil Wilson to transport
him in an automobile from Newell,
W. Va., to East Liverpool, drew a
24-year prison term from Federal
Judge Harry Watkins yesterday.

SHELL EXPLOSION
HURTS 5 CHILDREN

HOUSTON, Tex., Aug. 27—Five
children of the same family were
injured seriously in the explosion of
a Spanish-American war cannon
ball they had been playing with in
front of their home here last night.

They had found the rusty cannon
ball in weeds near the home of
their parents, Mr. and Mrs. Henry
C. Tharp, and were playing with
one on a footbridge when it ex-
ploded.

Injured were Billy, 8, badly man-
gled left leg and possible shoulder
fracture; Bobbie Jean, 5, possible
left arm fracture; Melvin, 9, two
holes in left leg which possibly
fractured; Wanda Lee, 11, possible
internal injuries; and Betty Jo, 13,
one foot almost blown off and se-
rious wound in thigh.

Deputy Constable Lea Butler said
no one in the neighborhood knew
where the cannon ball had come
from.

A neighbor said that some of the
children borrowed a small drill and
bored out a section of the missile.

When "something black poured
out of it," they touched a match to
it, the neighbor said one of the
children related.

Australian Delegate Hurls
"Lies", "Intimidation"
Charges At Russia

PARIS, Aug. 27—Australian Dele-
gate J. A. Beasley brought dele-
gates at the Paris peace conference
to their feet today with a blistering
attack in which he accused Russia
of "lies," "intimidation" and "power
politics."

But the burst of hard boiled or-
atory ended amicably and the Aus-
tralian and his antagonist, Andrei
Vishinsky, Soviet deputy foreign
minister, left the room smiling to
one another.

Before adjournment of the polit-
ical and economic commission on
the Italian treaty, at which the
clash occurred, Australia agreed
to drop her proposal for a standing
sub-committee to "examine, collect
and report" on the facts in Italy's
frontier dispute with Yugoslavia,
France and Austria and to make
recommendations if it seemed fit.

Committee Is Named

But the commission adopted
unanimously a similar proposal
from the French to organize a
standing committee to investigate
any point of dispute concerning the
Italian frontier. This committee will
have three rotating members from
the nations invited to the 21-nation
conference and four members from
the four principal powers.

Beasley began his outburst by
exclaiming at Vishinsky "all right
now, you've had a lot to say, and
I'm going to have my say too."

He came to the defense of Col.
W. R. Hodgson of Australia, whose
arguments before the Italian treaty
economic commission, had been be-
littled by Vishinsky.

"Russia's tactics of thrusting
their speeches down the throats of
those who oppose them... is get-
ting unbearable," Beasley said.

"Freedom from fear does not ex-
ist in the world today," Beasley
told the representatives of 21 na-
tions.

Lays Fears To Russia

"Fear is abroad in Europe, which
is a sorry place after this war, and
this fear is enhanced by the Rus-
sian tactics of thrusting their
speeches down the throats of those
who oppose them. We refuse to be
intimidated."

"There is a lot of lying going
on in the case of many of these
questions. The peace of Europe is
as important to us as to anybody
else."

Beasley had not spoken for long
before Vishinsky rose to protest.

Beasley appeared aroused espe-
cially by a remark Vishinsky made
earlier that "Australia is the far-
thest point from Europe and has
presented 35 per cent of the pro-
posals to this conference."

Hodgson had moved to name a
permanent subcommittee to in-
vestigate Italian frontier disputes
and Vishinsky attacked the plan with
vigor. He accused Australia of "de-
laying tactics" and asserted that
the plan was "put forward to de-
stroy the work of the foreign min-
isters."

In another phase of the peace
conference, Czechoslovakia de-
fended before the Balkan commission
Russia's demand for \$300,000,000 re-
parations from Romania.

BOY, 12, RESCUED
FROM WHEAT BIN

ASHLAND, Aug. 27—Marion
Digard, 12, narrowly escaped suf-
focation Monday when he fell into
a wheat bin at the Bryan Elevator
in Polk and was buried in 15 feet
of wheat.

Workmen, summoned by his sis-
ter, Doris, 10, found the boy buried
under wheat except for his finger tips.
Two men clung to his fingertips
while others endeavored to get air
to the lad and still others broke
out an adjoining bin and shoveled
out an estimated 10 tons of wheat.

Rescue efforts continued for over
two hours. The boy's mother, Mrs.
Verne Digard, collapsed when he
was pulled from the bin.

Given resuscitation by Ashland
police, he was then taken to Sa-
maritan hospital where his condi-
tion today was reported as good.

MARRIAGES, NEW CAREER IN OFFING FOR THEM

Miss Bruce

Miss De Havilland

Miss Shearer

EVENTS IN THE LIVES of these Hollywood actresses make news headlines. Virginia Bruce is marrying
Ali M. Ipar, Turkish writer and film producer in a private ceremony in Hollywood. Olivia DeHavil-
land, long known as Hollywood's bachelor girl, takes Screen Writer Marcus Goodrich as her first
mate in a New York ceremony. Norma Shearer ends a four-year retirement from the screen by sign-
ing a long term starring contract.

Miss Bruce's New
Mate In Stockade

(By Associated Press)

HOLLYWOOD, Aug. 27—A mixup
over his leave papers landed Actress
Virginia Bruce's fiancé in an army
stockade last night, but he was out
again a few hours later, confident
that their marriage today would go
ahead as scheduled.

Climaxing an evening of mys-
terious maneuvers, with two army
investigators who wouldn't even
give their names playing principal
roles, Pvt. Ali M. Ipar, a Turkish
national, was freed on orders of
Capt. William Beckerman, provost
marshal at nearby Fort MacArthur,
who said:

"We have nothing on this man
and have no reason to hold him."

Neither Beckerman nor the army
agents, who described themselves
only as connected with the War de-
partment's criminal investigation
division, would comment on the
nature of the investigation.

Said dark-eyed, mustached Ipar:
"It was all a mistake, involving
my leave papers. There was too
much to do about nothing."

He says he is on leave from Fort
Lewis, Wash., until Sept. 2. He and
Miss Bruce, planning their wedding
for 5 p. m. today, announced they'd
honeymoon for four days in Las
Vegas, Nev.

The 35-year-old actress has been
married twice before, first to the
late John Gilbert, father of her 13-
year-old daughter, Susan; then to
the late J. Walter Ruben, director
and father of her son, Christopher, 5.

5 Motorists Fined

The state highway patrol reported
five arrests today, some of which
were a result of accidents on dis-
trict highways over the weekend.

Paul Verdram, 31, Youngstown,
forfeited \$15 bond when he did not
appear at a scheduled hearing be-
fore Mayor R. R. Johnson to answer
to a charge of speeding.

Albert K. Lyons, 33, Glenshaw,
Pa., was fined \$15 and costs by
Mayor Lloyd Culler of Washington-
ville on a speeding charge.

Patrick Hannan, 21, Youngstown,
who sideswiped a car Sunday eve-
ning, was fined \$50 and costs by
Mayor Hugh Dickson of Canfield
on a drunken driving charge.

Ray C. Phillips, 21, R. D. 1, Salem,
who also was involved in a two-car
accident Sunday, was fined \$50 and
costs by Mayor Johnson for reck-
less driving.

James W. Gray, 62, Kensington,
who was the driver of the other
car in the Phillips accident, was
fined \$25 and costs by the mayor
for failing to stop a safe distance
behind another vehicle.

Farming After The War

Agricultural experts are putting up the danger signals in an effort to slow down the rush to the farms, occasioned by the fact that the country's farm income is now at the all-time high of \$24,000,000,000 which is about one-third above the prewar peak and is five times as much as in the depression year of 1933.

The U. S. Department of Agriculture, cooperating with Ohio State University, announced that farm land prices are 98 percent higher than in the 1935-39 period and that much of this is being bought under mortgages that threaten ruin if the income drops.

The war years and the year which followed have been almost fabulous times for the farming industry. Growing conditions have been extremely good and prices have been extremely high. This has led to a rush to buy land at such prices that it will be difficult to meet the payments if there is a year of bad weather or a sharp break in prices.

Veteran farmers are in a position to meet such reverses. The Bureau of Agricultural Economics tells us that the farmers have cut their mortgage load in half from the depression peak of \$10,700,000,000 and have \$3,910,000,000 in War Bonds and \$11,700,000,000 in bank deposits. It is the new farmer who has borrowed money to buy land at unfavorable prices who worries the experts.

Every person in this country is affected. So long as the 30,000,000 farm dwellers have a good income and sound spending power, the job of the factory worker and the income of the town merchant are protected. It is time for them to worry when conditions cloud the prospects for this important fourth of the American population. They provide the cushion to take up the shock of any postwar recession in these good times.

Astronomical New Dealing

Even those persons who have been inured to astronomical figures by government spending for the last 14 years will be staggered a little by the proposal of a Federal Reserve Board survey that this nation undertake a public works program to cost \$400,000,000,000 which is somewhat more than the public debt, heretofore considered the ultimate in financial figures.

It probably is mere coincidence that this study is the work of a bright young man of 32 who happens to be a native of Trieste, a trouble spot where unpredictable things happen.

It comes at a time when most Americans were watching hopefully for some indication of a decrease in fabulous public spending and when many were old fashioned enough to dream of some future day when private enterprise will be able to take a hand again in the nation's economic life.

It becomes fantastic in a day when employment is at a peak, when materials are at a minimum and when everybody who wants a job can have one at the highest wages in the history of this or any other country.

There is no occasion for too much alarm. It is a long way from a theoretical study to practical application of a government policy but it is an indication that the fantastic ideas of those who made up the New Deal are still alive and seeking to perpetuate themselves in the American life.

In this way it serves a useful purpose in warning the people that they must not be lulled into the deception that the fanciful theorists have left Washington and that the nation has been restored to the private enterprise and the sensible principles which built it.

Japan's Sun Is Rising

Authorities on the Orient are coming increasingly to the belief that a defeated Japan is rising to opportunities never possible to the nation when it was a ruthless aggressor. Political events in the east are building the setting in which Japan's prospects for greatness are extremely bright if her leaders have the realism to take advantage of the opportunities which fate has provided.

Internal warfare seems certain to rob China of the opportunity for leadership which seemed within her grasp not long ago. India's embattled racial and religious groups seem incapable of the unity necessary for national strength. Only Japan, so lately prostrate, seems to be on the rise.

Gen. MacArthur's administration of Japan has been successful beyond the hopes of the experts. The acceptance of occupation and control which seemed at first to be an oriental trick now appears more genuine. The popularity of the American commander and of his forces seems to have real substance in at least a large portion of the Japanese people.

No nation in the world made greater industrial strides than Japan in the last half century and comparatively little of this capacity for production was destroyed during the war. Exports already are being shipped and the volume is increasing.

The Japanese people have an amazing capacity for hard work and for privation, prime requisites for rebuilding a nation which has undergone the social and economic upheavals caused by war. Most important of all from the Japanese point of view the American people, always their best customers, are of a forgiving disposition.

Everything leads to the conclusion that if Japan really wants peace it will get it together with the prosperity that peace brings. It is the responsibility of the world and especially of this country to be ever alert to the danger that this may revive the thirst for political power.

White Bread Again

The major effect of the return of standard white flour, set for Sept. 1, is that housewives can again make angel food cake which will rise to the heights characteristic of this product of the kitchen. With the

"dark" flour which has been produced for several months bread tastes just as good and most other things turned out well.

Lifting of the restriction with the 1946 harvest is possible because nature has blessed this country with the greatest grain crop in history, making possible continuation of relief to more needy countries while maintaining this country's high standard of living.

There has been a strong suspicion in many quarters that the dark bread regulation was invoked largely to dramatize the need for American help to the starving overseas.

The family baker will be happy over termination of the rule. There is a feeling in some quarters that its imposition in the first place was a good deal like the case of the man who kept hitting himself on the head with a hammer because it felt so good when he quit.

The Stars Say

For Wednesday, August 28

DECISIVE and well-organized plans and tactics seem destined to unlock exceptional avenues and alliances for the launching of important objectives in which exceptional ability, ingenuity and skill attract support and practical contributions from those in power and influence.

Bold strokes, concrete developments of fresh ways and means for attacking difficult problems with directness, audacity and concentrated effort, should prove highly productive and create firm foundations for future security and lasting achievements. Impulsive moves or erratic gestures might jeopardize this, with reactions on personal happiness undermining excellent performances under way. Self control "is of the essence."

Those whose birthday it is stand at the threshold of a year of decisive and long-range growth and production in launching a progressive, lucrative and constructive career, in which there are public and private alliances promising enduring happiness and security, with possible honors.

Sound and practical techniques, systematically developed or tested and workable plans with bold ideas, lead to desired objectives.

A child born on this day is progressive, brave and skillful, with new ideas and initiative, but it is likely to defeat itself by rash, impulsive or erratic words and acts.

A Chicago woman got a divorce because her husband refused to teach her how to play golf. No rough stuff for him!

It took an eight-man emergency police squad to get a 280-pound Brooklyn woman out of a bathtub. That's almost as hard as it is to get a youngster into one.

Feeding Problem In Infants

BY HERMAN N. BUNDESEN, M.D.
OF ALL the behavior problems which occur in children, those connected with feeding are the most common. Most of these problems begin during the first two years of the child's life, but, according to Dr. Benjamin Spock of New York, they need not develop at all if mothers will only learn that babies are people, too.

That is, they are not just little containers to be stuffed with such and such an amount of food. From earliest infancy they have their individual preferences as to quantity and, as time goes on, they quite naturally develop all sorts of likes and dislikes as more and more foods are added to their menus.

Force a Mistake

It is always a mistake, Dr. Spock feels, to force the child to eat what he does not want. In the first place, this course is likely to develop an immediate feeding problem and in the second, the feeding problem, itself, by creating friction and tension between mother and child, may become the source of further evils, real misbehavior in later childhood, or even maladjustment in adult life.

To begin with, a feeding problem may occur when the mother first arrives at home with her baby from the hospital, with a feeding formula that perhaps contains more of the milk formula than the baby really needs. When the baby has taken as much of the milk as he wants and falls asleep, the mother, instead of being pleased, notes that some of the milk is still left in the bottle.

She then attempts to awaken the baby to make him take what is left. If he awakens and cries she puts the nipple on the bottle into the baby's mouth. If he tries to go to sleep again she wiggles the nipple about.

Of course, the baby resents treatment of this sort and will refuse to take the milk that he does not want. Gradually he will begin to refuse to take the milk mixture that he should have.

As the mother becomes more and more concerned, the habit of refusing to take the milk mixture only gets worse. Babies who have been robbed of their appetite in this way go all through childhood as poor eaters.

Thus it is important in the first few weeks of the baby's life for the mother to understand that the

baby usually can be trusted to control the amount of food that he requires. In planning a feeding formula for the baby, the physician can only approximate the amount the baby needs to satisfy his hunger. Parents should not try after the baby has stopped feeding to make the baby take the milk mixture that may be left in the bottle. Of course, if the baby does not gain weight satisfactorily the physician should be consulted.

Another time at which feeding problems arise is when the baby is given the first solid food, when he is about four or six months old. Here, again, there must be no effort to make the baby take the strange food in large amounts at first. By going slowly and taking it easy, and not forcing matters, the baby soon will learn to take new foods and like them.

QUESTIONS & ANSWERS ABOUT INSURANCE!

2. Is PERSONAL LIABILITY insurance expensive?

A. No! Rates have been greatly lowered. It covers you, your family, home, garden, dog, bicycle, hunting, fishing, golf, personal acts—and liability for accidents to domestic employees. Reductions for 3-year policies.

Corso Family Plans 2-Day Wedding Anniversary Fete

Plans have been completed for a two-day celebration of the golden wedding anniversary of Mr. and Mrs. August Corso, Sr., of E. State st.

The festivities will begin with a family gathering Sunday at the home of Mr. and Mrs. August Corso, Jr., S. Lincoln ave.

At 9 a. m. Monday, Labor day, there will be a special mass said for them at St. Paul's Catholic church. From 4 to 8 p. m., Mr. and Mrs. August Corso, Jr., will keep open house to receive their friends.

While Mr. and Mrs. Corso were married 52 years last January, the celebration of their 50th anniversary was deferred because their five

sons and five grandsons were in World War II. All have returned home.

Wed In Sicily
Frances Longo and August Corso were married Jan. 14, 1893, in St. Anne's church, Termini, Imerese, Sicily, the groom having returned from the United States to be married. Soon after their marriage the couple returned to America.

Mr. Corso was in business in Pittsburgh and Butler, Pa., before coming to Salem, where in 1894 he established the Corso fruit store. He was in the fruit and vegetable business until 1933 when he opened the Corso Wine shop. This year marks his 52nd year in business in Salem and he will observe it by opening a larger store to include specialty groceries.

Mr. and Mrs. Corso are the parents of 13 children. A son, Charles, died in 1940. They have four daughters: Mrs. Anna Nevant, Mrs. Mary Nevant and Mrs. Rose Petrillo of Farrell, Pa., and Mrs. Kathryn Lopinto of Pittsburgh, and eight sons, James of Cleveland, Dr. Paul, Frank, Anthony, Joseph, Michael, August, Jr., and William of Salem. The four last named are associated with their father in business.

Woman Who Lived After Elevator Plunge Has Baby

FORT SMITH, Ark., Aug. 27. — Mrs. Betty Oliver, who lived to tell of falling more than 70 floors in a loose elevator in New York's Empire State building, is a mother today.

She gave birth to a seven-pound, three ounce daughter at a Fort Smith hospital yesterday.

Mrs. Oliver was operating an elevator in the Empire State building when it was struck July 28, 1945, by a fog-blinded army bomber. With the young operator as the only occupant, the elevator plunged down more than 70 stories after its cables were snapped by the crash.

Mrs. Oliver, who had taken the job part-time to await the return from overseas of her husband, Navy Torpedoman 3-C Oscar L. Oliver, suffered a back injury, burns and bruises. She was confined to a New York hospital for four months and then returned to her Fort Smith home with her husband.

Hospital attendants said Mrs. Oliver and the child were "doing nicely" today.

Ohio Peaches Reaching Markets, Shaw Reports

Ohio peaches are coming to market, and they are of fine quality and suitable for either fresh or preserving by canning, freezing, or dehydration.

In Ohio, many homemakers prefer to can Ohio-grown peaches. This is a wise move, points out Clifford Shaw, chairman of the Columbiana County Agricultural Conservation association. Ohio peaches are shipped shorter distances to reach Ohio markets, and can be more fully tree-ripened, therefore, are sweeter and more flavorful.

Dancing Seems Grounded For '47

(By Associated Press)

CHICAGO, Aug. 27.—Dancing has been grounded for 1947. Undulating hips in the rhumba are out. Rhumba devotees will shake their feet instead.

In the Lindy—jitterbug to hepato—you have to be smooth to dig it right, Jackson.

The object, rugcutters, is not to knock other dancers off the floor by swinging your girl over your shoulder but to twirl her as many times as you can.

That's the opinion of dancing experts here for the National Association of Dancing Masters' convention.

Donald Sawyer of New York City says there's "less hip motion and more foot work" in the rhumba.

"A dance gaining popularity," Sawyer says, "is the betecita," which he says describes a boat rocking on the water.

"Good for a crowded floor," Sawyer added.

Arthur Powell of New York City, who specializes in teaching the Lindy, said jumping live borders on the obsolete and the Lindy is taking its place with standard ballroom dances.

Jitterbugging is "being done very smoothly" with numerous turns, Powell said, taking a few intricate steps with an assistant.

So, hepato, it looks like you'll have to give up rugcutting for just a little shipping.

LEETONIA TRAFFIC LAWS IN EFFECT

LEETONIA, Aug. 27.—Motorists are reminded of the village's new parking ordinance, which limits parking on streets in the downtown area to one and one-half hours, from 8 a. m. to 6 p. m.

In order to accommodate those who drive to work, the village is preparing a parking lot just east of the City building for free parking.

Car owners found guilty of violating the new ordinance are liable to a fine of from \$1 to \$5 for each offense. An ordinance, providing for a longer parking period in the evening (five hours) also is in effect. This will prevent all night parking on downtown streets, which will give the street commissioner and his men an opportunity to clean the pavement more often without having to contend with parked cars.

Food Tastes Better When Cooked with GAS

In areas where gas is available for home use almost every housewife depends on the tiny gas flame to prepare tastier, more economical meals. These women will appreciate the many new conveniences and improvements in the new gas ranges now on display at your Gas Appliance Dealer's and at your Gas Company Office.

NATURAL GAS CO.
OF W. VA.

IF YOUR HUSBAND is like most men he'll just mumble and go on reading his paper when you try to explain the many desirable features of the new gas ranges—the fully automatic controls, the giant burners for speedy pre-heating, the simmer burners for "waterless" cooking, the smokeless broilers and spacious ovens with extra heavy insulation that saves fuel and gives cooler cooking comfort.

HE MAY PERK UP just a little and even peer over the top of his paper when you mention the comparatively low prices of the new gas ranges. He's interested in that! And he will be considerably more than "just interested" when you tell him how economical it is to cook with gas—when you point out that the average family cooks with gas for less than a dollar a month.

BUT HE'LL POSITIVELY BEAM when you serve him a meal cooked on one of the new gas ranges. A juicy roast seared in a hot oven then slowly cooked to a delicious tenderness; flaky pies and pastries baked in an evenly controlled temperature; tasty, colorful vegetables simmered slowly to preserve nutritious vitamins and minerals; steaks and chops broiled under a live gas flame. Unammun!

Coach Barrett Believes Salem 11 Means Business This Year

After six days' practice, Coach Pen Barrett is satisfied with the showing made by his 1946 Salem High grid machine.

The first week's workouts were spent mostly in drill on fundamentals and working the team on new plays, Barrett reports. This week more new plays are being given the players.

In addition to learning the plays, the team will be given a lot of dummy scrimmage, with special emphasis laid to speed, both in the backfield and in the forward wall. Barrett hopes to smooth some of the rough edges from the squad this week in preparation for practice games next week with Youngstown Ursuline and Youngstown Chaney.

Today the Quakers engaged in a

practice tilt against Youngstown East, coached by Dick Barrett, a brother of the Salem mentor. It is hoped that the local eleven will have gained a lot in experience and teamwork by playing the early practice tilt.

Barrett this year, has emphasized a set of training rules, which consist of a curfew and instructions regarding the proper food to eat. Men who are out for football are to be

off the streets by 9:30 each night except Saturday when the limit is 11:30. Special consideration, however, is being given this week, due to the softball playoffs.

The coach has advised the grid-ders to eat plenty of fresh vegetables and drink lots of milk. He has nothing against sweets, saying that high school players burn up energy too fast to be harmed by eating sweet food.

Regarding the first week of practice, Barrett admitted that the team may have looked ragged at times, but that was partially due to the fact that some of the men did not know their plays as yet and that other players had not been able to attend all the practices.

He has confidence in the '46 Salem edition and believes they "mean business." In that regard, he has

not done a lot of policing in connection with his training rules.

"Competition is so intense for each position this year," he said, "I have no worries about players not training or loafing in practice. They will either do those things, or someone who does will beat them out."

Despite his early efforts to restrict the number of uniforms issued, Barrett has been forced to

issue more suits to promising material. At the present time more than 90 men have drawn equipment.

This is in great contrast to 1943, when only 36 men reported for the initial practice and no more than 50 came out for football all season. That year all the men out were on the varsity squad and all at least received a reserve letter.

The situation is much different

this season, with men who have not been able to draw uniforms, waiting impatiently for cuts to be made and for men to drop out so that they may play. Full consideration would be given these would-be players if dressing room facilities were available to accommodate the uniforms and players.

However, the lack of space in the Reilly school rooms has forced Barrett to hold his squad down.

Shaughnessy Playoffs Tied Up As Mullins, China Annex

Manufacturers Top Leetonia 2-1; China Wallops Center

It was Friday night all over again at Reilly field Monday with "reverse English," as the teams which won last week took it on the nose in two games that were almost identical to those previously played in the Shaughnessy playoff finals.

Mullins came back to avenge their defeat at the hands of Leetonia by whipping the Crescents 2-1 on John Zines' one hitter, which duplicated that pitched by John Clunen Friday. In the National league tilt it was the Bowling Center who fell apart this time and lost their game to the Salem China 11-1.

A crowd of 800 saw the games. The Manufacturers took the lead in the first game in the third inning when Pete Bennett doubled, moved along on a Crescent error and finally scored on a passed ball. They came back in the fifth with another tally which was scored when Mike Oona singled, advanced on an error and a sacrifice and came across after the catch of a fly ball. Leetonia's lone run was scored by Sammy Stumpo on a ball that got away from Mullins. Catcher Mike Guappone, who had been hit by one of Zines' pitches to reach base.

Zines had the Crescents eating out of his hand all the way, as he gave them only one bingle, a double by Neil Kegelmeyer in the second inning. Clunen for Leetonia, was almost as good, yielding only three hits. Zines fanned eight and walked two, while Clunen whiffed one batter.

Steve Zaitko, Mike Oona and Pete Bennett got the only Mullins hits. The game was every bit as good as the Mullins-Leetonia game of last Friday, if not so exciting. The winners displayed tight fielding again, although they still are not hitting as usual.

Dale Ritchie of the China had his revenge in defeating the Bowling Center in the National league tilt. He gave up only two bingles, both singles by Jim Garrett. He fanned five and walked only one to fully atone for his game Friday when he was battered out of the box.

The Center lads played much as the China did in the last encounter, committing nine errors and playing loose ball throughout the game.

The Potters tallied two runs in the second, five in the third, three in the fourth and one in the fifth, while the losers got their lone counter in the second frame.

Wayne Hahn allowed the China six singles, granting them a pair in each of the second, third and fourth innings.

Joe Kelley, league manager, announced that the third and deciding games in the Shaughnessy playoffs will be played tonight under the Reilly field lights at 8 p. m. The chips will be down tonight and all four teams will be out to win their respective league titles.

Salem Polo Club In Action Wednesday

It'll Be Tight Squeeze In O. S. U. Stadium

COLUMBUS, Aug. 27—About 2,500 additional seats will be made available for football games in Ohio State university stadium this fall by reducing width of seats in the general public and student and faculty sections, ticket officials reported today.

The additional seats obtained will be used to fill orders already on hand for student and faculty books and some of the many oversubscribed general public orders, it was explained. Seating capacity of the stadium thus would be increased to about 75,000.

"The number is inconsequential in the face of demand," said Athletic Director L. W. St. John, "by cutting down on each seat an inch and a fraction, we will be able to provide seats for more students and a few more fans from the general public," he said.

Named Mentor Coach

PAINEVILLE, Aug. 27—Harland (Harley) Howells, who captained the Ohio State university track squad in 1939, has been named coach of basketball and track teams at Mentor high school.

Selection of the Akron Polo club as opponents for the Salem team in Wednesday's benefit game for the American Legion Quaker City band was announced today.

The West Shore club, of Harrisburg, Pa., which played here Sunday, had been originally scheduled to meet the Salemites tomorrow, but arrangements could not be made for them to stay over.

The Wednesday game will begin at 6 p. m. on the Ellsworth road field. The Quaker City band will be present and will play between chukkers. All the proceeds of the game will be turned over to the band to form a uniform fund.

The Akron club features such players as Dick Knepper, Chick Barr, who refereed here Sunday, Dick Harrison and Bud Strauss. Salem will field its regular team, consisting of Walt Fernengel, Willie Smith, Pete Botaw and Hal Everett.

Second Walker

NEW YORK — Mickey Walker, former world middleweight champ, filed application with the N. Y. Boxing commission for a second-slice race to work in Elmer Violent Ray's corner against Lee Savold at Ebbets field.

Dick Fowler, Athletics—Shut out Chicago with eight hits, 3-0.

Bird's Musical Majorettes Working Out To Perform In Cleveland Brown Game Show

CLEVELAND, Aug. 24—While the Cleveland Browns' football eleven goes through its daily maneuvers at Bowling Green, 33 young women who will make sweet music at the Browns' football games this fall are practicing eight hours daily at Shaw stadium here.

Under the direction of George (Red) Bird, whose Massillon High school swing band gained national renown, these ex-school teachers, switchboard operators and secretaries who played in symphony orchestras or in dance bands of their own are going through their paces as they rehearse for their first appearance which is scheduled for the Rubber Bowl in Akron on Friday, Aug. 30, when the Browns meet the Brooklyn Dodgers in an exhibition.

The girls will be known as "George Bird's Musical Majorettes." Some are fresh out of High school and on their first job. Others left positions to see if they could make a success of music as their career.

In describing his girls, Bird says, "They're not frilly, just the ideal type of American girls. Rugged, not delicate. When they're through rehearsing at the end of a day, they play tennis, golf or go swimming."

Bird is proud of the versatility of his young ladies, many of whom can play two or more instruments. In screening the hundreds of applicants who sought jobs with the Musical Majorettes, Bird sought musicians who could play anything from Victor Herbert selections to marches and swing music.

In addition to appearances at the Browns' football games, the unit is ready to play at fairs, stage shows and parades.

The Cleveland Browns are investing more than \$50,000.00 to build up this musical organization which under Bird's expert guidance should be the most outstanding of its kind.

With Bird's band providing entertainment before the Browns' games, at halftime and during periods when there is a lull on the gridiron, football fans of Cleveland and northern Ohio are looking forward to a great entertainment treat.

The roster of the Musical Majorettes contains names of girls from Ohio, Michigan, Pennsylvania and Indiana. Four of Bird's musicians—his daughter Shirley, Eleanor Goebrecht, Patty Lautenschlager and Corky Swihart—played in his Massillon bands.

Steve Souchock, Yankees—His pinch triple scoring two runs was the blow of seven-run eighth inning that enabled New York to drub Detroit, 10-6.

Elbie Fletcher, Pirates—Doubled with bases loaded in ninth inning to crown Boston, 3-2.

Horne To Meet Doyle

YOUNGSTOWN, Aug. 27—Middleweight George (Sonny) Horne of Niles, O., will meet Irish Mickey Doyle of Cleveland in the featured 10-round bout of Promoter Al Zill's fight card at Idora park tonight.

DODGERS TO TANGLE WITH WARREN CLUB

The Salem Althouse Dodgers will meet the Warren G. C. Negro team at Centennial park at 6 p. m. Wednesday.

Jerry O'Hara, Minerva High school basketball coach probably will pitch for Salem.

Manager Al Catlos reports the local team will be at full strength in all other positions.

Enos Slaughter, Cardinals—Drove home both St. Louis runs of 2-1 edge over Brooklyn with double in first inning.

U. S. Warships To Visit Greek Ports

(By Associated Press)
WASHINGTON, Aug. 27—U. S. warships will call at Greek ports next week in what was described by the Navy today as a "visit of courtesy" occasioned by the "great admiration of the Greek people" for the late President Roosevelt.
The 45,000 ton Aircraft Carrier Franklin D. Roosevelt, currently on a Mediterranean cruise, and the 10,000 ton cruiser Little Rock, with three destroyers will visit Piræus, the seaport for Athens, from Sept. 5 to 9, the navy announced.
Two other destroyers will visit Salonika at the same time, the navy said.
The way was left open for a possible visit to a Turkish port.
Moscow radio charged yesterday that the Mediterranean cruise of the task force was tied in with the Yugoslav-U. S. situation and that the United States was trying to put pressure on the Balkan nation with a display of naval strength.
The announcement of the trip to Grecian waters was released simultaneously in London and Washington.

"Because of the great admiration of the Greek people for the late Franklin D. Roosevelt," the Navy said, "it has been arranged for the U. S. Aircraft carrier which bears his name to pay a visit of courtesy to a Greek port during the period of intertype training with other U. S. units in the Mediterranean."
(Intertype training involves co-ordination of ships of different types).

Held By Slavs

Detention of Sgt. Kenneth E. Schussel, above, of San Francisco, and two other U. S. Army sergeants by the Yugoslavian government in connection with the shooting of a Russian soldier has drawn criticism from the soldiers' parents and state department officials. The three have been denied permission by the Yugoslav government to leave the country and have been under protection of the U. S. embassy in Belgrade since February. American investigators have established that they were not present when the Russian was shot. (Int.)

Government Halls Work At Lake Milton Track

WASHINGTON, Aug. 27—The Civilian Production administration today cracked down on a list of varied building projects throughout the nation, including a dog-racing track, a tavern and gasoline station, and numerous home and store projects.
Morris Verner, Jr., CPA compliance director, in announcing the series of stop orders, said that "authorizations to build will be revoked" and construction stopped with resultant financial loss to the builder in every case where it is found that "existing facts have not been properly or completely presented."
Cases within this category included:
CPA ordered construction stopped on a grandstand and other structures (on Route 18 at Diamond, Portage county, Ohio) for a dog-racing track, operated by William J. Stoughton and Jack Lucas, doing business as the Lake Milton Kennel club; CPA said the work was begun with CPA authorization and would cost in excess of a \$200 limit permitted.
A U. S. warship named for a large city would be a cruiser, since cruisers assume city names.

"PICKLED PLANES" SALTED AWAY UNDER DESERT SUN

NO JUNK PILE is this array of Army Superforts, for these 700 B-29's at the Davis-Monthan Army air field near Tucson, Ariz., rest under the desert sun ready for action. Unlike surplus bombers rotting away, these sky giants are kept in top condition and periodically inspected. (International)
